

## WHAT IS A SKYON CANOPY?

Skyon canopies are a refreshingly new concept which uses the latest technology and design to solve many outdoor problems facing today's homeowners and business owners alike. It's unique appearance is aesthetically appealing and functional. Our canopies are designed using high quality powder coated aluminium framing with low-maintenance interlocking solid polycarbonate roof tiles and comes complete with a rainwater guttering and down pipe system to match. The polycarbonate roof tiles are virtually unbreakable and allows natural sunlight to filter through while blocking 99% of harmful UV rays.

Skyon canopies can be interlocked to span any distance and offers multiple shapes. Supplied in kit form, and with clear assembly instructions, our canopies are easy to install, or optionally you can inquire about our professional installation service.

## WHAT ARE YOUR NEEDS?

Our canopies are versatile, with either professional installation or on your own. We'll work with you or your contractor so you will get the best advice on your installation. Use our canopies as :

- A single or multiple carport
- Roof over porch or deck.
- Entrance canopy
- Bus shed
- Walkway roofs

## CALL US TODAY!

We'd be happy to help you decide which is the best option for you – right over the phone or in-person. Find out exactly how much your skyon canopy will cost.
